Education:

Northeastern University

Boston, MA | Graduated May 2024

Khoury College of Computer Sciences

Candidate for Bachelor of Science in Computer Science w/ Concentration in Software

Relevant Courses: Fundamentals of Computer Science I & II, Logic and Computation, Object-Oriented Design, Algorithms & Data, Fundamentals of Software Engineering, Computer Systems, Web Development, Discrete Structures, Networks & Distributed Systems, Theory of Computation, Programming Languages

Skills:

Languages: Java, C/C++, C#, SQL, JavaScript, HTML/CSS, TypeScript, Python

Dev Tools: Git, Linux, IntelliJ, Visual Studio Code, MSSQL, Postman, Azure DevOps, AWS, MongoDB

Frameworks/Libraries: .Net, jQuery, Node.js, Express.js, React.js, Entity Framework, Redux

Professional Experience:

Amazon, Software Development Engineer

Seattle, WA | June – Present

Amazon, Software Development Engineer Intern

Boston, MA | June – September 2023

- Designed and implemented an AWS CI/CD pipeline using CDK for efficient package and stack development across various environments.
- Developed a front-end project to showcase data models, serving multiple Amazon teams and over 50,000 daily downstream customers.
- Leveraged AWS tools like S3, Lambda, and CloudWatch to create an end-to-end application.

Coverys, Software Developer Co-op

Boston, MA | January – June 2023

- Achieved seamless user experience through full-stack development, facilitating efficient access to courses and certificates for over 25,000 downstream customers.
- Enhanced data management efficiency by creating SQL stored procedures for retrieving and managing information from diverse database tables.

Coverys, Software Developer Co-op

Boston, MA | January – August 2022

- Employed Object-Oriented (OOP) principles and MVC patterns in ASP.NET, JavaScript, jQuery, and HTML/CSS to enhance the stability and maintainability of the Med-IQ website.
- Collaborated with a development team on designing and implementing new application features, managing tasks via Azure DevOps, ensuring code quality through reviews and unit testing, and contributing to team meetings to address project challenges and solutions.

Wentworth Institute of Technology, Tutor

Boston, MA | August – Dec 2020

- Provided mentorship to 10 - 15 students weekly, enhancing their grasp of Computer Science 1 concepts with a focused emphasis on the Java programming language.
- Diligently reviewed and dissected weekly assignments, quizzes, and tests, playing a pivotal role in substantial improvements in students' academic achievement within the class
- Assisted students in debugging and troubleshooting code, teaching effective debugging techniques, and improving problem-solving skills.

Creci, Software Engineer Intern

Remote | June – August 2020

- Collaborated on updating and expanding API functionality by leveraging Node.js and Express.js, resulting in improved data retrieval and transmission for client information.
- Maintained and enhanced API documentation utilizing open-source Swagger UI, making it easier for developers to integrate with the system, thus boosting developer efficiency and project timelines.
- Operated within a dynamic agile development framework, using Jira to efficiently manage and execute weekly tasks, ensuring smooth project progression and timely achievement of key milestones.
